

POUCH - Tuna and GO!!

NEW PROJECT. JANUARY 2021

We continue working to bring new product references with added value to the market.

In this line of constant innovation, we are immersed in a **new project** that will see the light in early 2021 and which consists of the manufacture and marketing of canned fish in aluminum pouches.

We are going to transfer all our experience as manufacturers of fish canning to a new, lighter and more versatile format that will add to our extensive list of references in cans and glass jars already consolidated in the market.

ADVANTAGES OF THE POUCH

Advantages

- Allows the **sterilization process**.
- It is the most **flexible and adaptable packaging**.
- It is **lightweight and reduces storage space**.
- **It reduces the environmental impact**, with less impact on the carbon footprint both in production, transport and in the disposal of the product.

The pouch format will be great for....

Flavoured a good
salad

Make a sandwich in no
time

Excursions or outings to
nature

At the gym or after sports

OUR RECIPES

Recipes inspired by international cuisine.

Flavors of the world to season our best selection of fish. We are going to move you to tropical areas and countries such as Mexico, Japan, China, Italy, India or Morocco.

Superfoods. Our recipes are packed with minerals, vitamins, antioxidants, and lots of protein.

OTHER SEAFOOD RECIPES

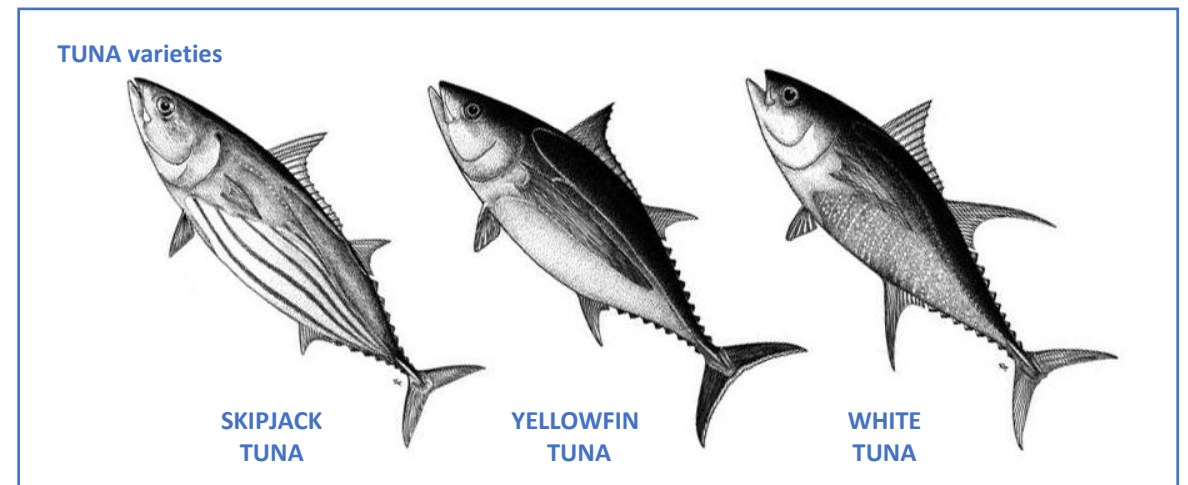

MSC SUSTAINABLE FISHING

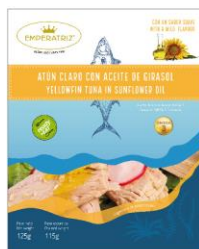

If you bet on **sustainable products** we also have a wide variety of **ingredients of organic origin**.

If you are also concerned about the conservation of marine fauna and believe that small gestures build great feats, then we offer you **MSC certified fishing**, the seal that **guarantees that the product has been caught in a controlled way** and contributes to the **sustainability of our seas**.

Our recipes can also be with **Skipjack** "*Katsuwonus pelamis*" and **White Tuna** "*Thunnus alalunga*".
