Who are we?

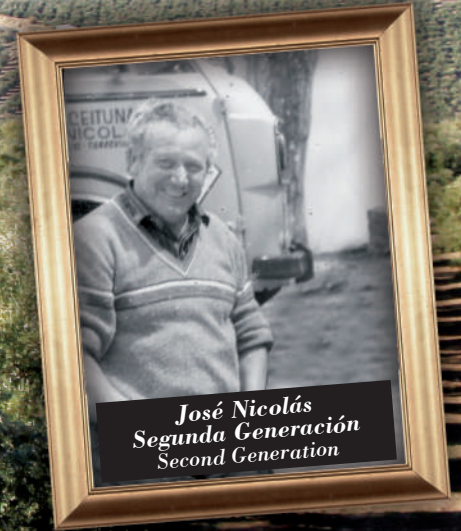

Everything goes back to the year 1896, when our great-grandfather started up in the world of the olive. He learnt from an early age the secrets of this fruit, travelling around the regions of Andalucía and Extremadura. He studied and chose only the best crops in Spain, and after years of effort and sacrifice he founded the company with his sons. Today, we feel proud and convinced when we affirm that we produce the best olives in the world: Gordal from Seville, Manzanilla from Arahál, olives stuffed by hand, and of course the best kept secret of the family: the dressing.

Jerónimo Nicolás
Tercera Generación
Third Generation
